

PEDESTAL FAN, INDUSTRIAL

Powerful airflow solution for cooling large event spaces, marquees, and backstage zones.

SKU: 1012138.00 | **Categories:** [Accessories](#), [Event Furniture](#)

PRODUCT DESCRIPTION

The **Pedestal Fan – Industrial** is built to deliver high-volume breeze in hot or stuffy event environments. With adjustable height and oscillation features, it balances strong airflow with directional control. Ideal for marquees, tents, hospitality zones, and crew areas, it helps keep guests comfortable during warm weather or under lighting load.

Features of the Pedestal Fan:

- High-velocity airflow
- Height adjustable & oscillating head
- Rugged construction for event use
- Safe for indoor/outdoor environments

Ideal Applications:

- Marquee interiors
- Green rooms / crew zones
- Catering / service areas
- Outdoor functions in warm weather
