

XL GRANDSTAND SEATING, APPROX. 297 SEATS

The XL Grandstand Seating system accommodates up to 297 spectators — the ideal large-scale solution for stadium events, major concerts, and high-capacity public gatherings.

SKU: N/A | **Categories:** [Event Seating](#), [Grandstand Seating](#)

PRODUCT DESCRIPTION

Engineered for strength, safety, and efficiency, the XL Grandstand delivers professional spectator seating for major events. Each structure features multiple rows of tiered seating, non-slip aluminium decking, and continuous safety rails to ensure secure and comfortable viewing for every guest.

Built with a heavy-duty galvanised steel frame and installed by trained professionals, these grandstands are certified to Australian Standards and suitable for both temporary and long-term use. Despite their size, they retain the flexibility of the modular system — meaning sections can be configured or linked with other units to fit any venue footprint or audience requirement.

Perfect for festivals, sporting tournaments, and public celebrations, the XL configuration offers premium capacity and can be extended or reconfigured as part of our [modular grandstand system](#).

Key Features of the XL Grandstand Seating:

- Capacity: approx. 297 seats
- High-volume seating for major events & venues
- Modular design for flexible, scalable layouts
- Non-slip decking and reinforced safety rails
- Australian-compliant installation

Ideal Applications:

- Stadium events & tournaments
- Large concerts & festivals
- Major graduations & ceremonies
- Public gatherings & parades
