

20M CLEARSPAN STRUCTURE

The **20m Clearspan Structure** is the largest in our marquee range, built for major events requiring maximum capacity, safety, and flexibility.

SKU: N/A | **Categories:** [Clearspan Marquees](#), [Marquees](#)

PRODUCT DESCRIPTION

The 20m Clearspan Structure is the ultimate solution for large-scale events requiring impressive scale, flexibility, and reliability. With a 20m span and modular 5m bay extensions, it can be configured to accommodate thousands of guests — making it ideal for exhibitions, festivals, gala dinners, and major sporting or corporate events.

Its **pole-free clearspan design** provides a completely unobstructed interior, giving organisers full creative freedom for seating, staging, and large-format event builds. Available with **canvas roofing** and a choice of **clear or canvas side walls**, this structure can be styled for light-filled showcases or enclosed, private environments.

Built for performance and presentation, the 20m Clearspan is fully **engineer-certified** and installed by **Registered Building Practitioners**, ensuring compliance with Australian standards. Optional **3m extended leg heights** provide additional clearance for AV rigs, lighting, or tall staging, making it a premium choice for high-profile events across Australia.

Key Features of the 20m Clearspan Structure:

- 20m span width with modular 5m bay extensions (scalable up to 40m+)
- Canvas roofing for full weather protection
- Side wall options: clear PVC or canvas panels
- 3m extension legs available for increased eave height
- Clearspan frame – no centre poles, total design flexibility
- Suitable for turf, hardstand, or raised platforms

Ideal Applications:

- **Large Exhibitions & Trade Shows** – expansive layouts with premium presentation
- **Major Festivals & Concerts** – crowd, backstage, or hospitality zones
- **Gala Dinners & Weddings** – luxury marquee experience at scale
- **Corporate & Sporting Events** – professional, high-capacity shelter
