

## 9M CLEARSPAN STRUCTURE

The 9m Clearspan Structure is a premium marquee solution, perfect for large weddings, exhibitions, festivals, and corporate events—offering scale, strength, and flexibility.

**SKU:** N/A | **Categories:** [Clearspan Marquees](#), [Marquees](#)

## PRODUCT DESCRIPTION

Spacious, elegant, and fully engineer-certified, the 9m Clearspan Structure is designed for large-scale events that demand both functionality and visual impact. With a wide 9m span and modular 3m bay extensions, it can be configured to virtually any length — perfect for exhibitions, weddings, corporate pavilions, or festival dining areas.

Constructed with a heavy-duty steel clearspan frame and durable canvas roofing, the structure provides complete weather protection while maintaining an open, unobstructed interior. Clear or canvas side walls can be added for privacy, weather shielding, or a more polished presentation, allowing flexibility across formal and casual event settings.

For taller layouts or added airflow, optional 3m extension legs increase the eave height — ideal for staging, equipment clearance, or grand interior styling. The modular design makes the 9m Clearspan adaptable to both city and regional installations, including sites requiring platforms or engineered flooring.

Installed by qualified professionals and compliant with Australian Standards, the 9m Clearspan Structure combines reliability, strength, and scalability for events of every kind.

### Key Features of the 9m Clearspan Structure:

- 9m span width with modular 3m bay extensions
- Canvas roofing for full weather protection
- Side wall options: clear PVC or canvas
- 3m extension legs available for elevated eave height
- Clearspan design – no centre poles, completely open floor space
- Suitable for ground or platform installation
- Fully engineer-certified and compliant with Australian Standards

### Ideal Applications:

- Large Weddings & Celebrations – elegant, open-plan layouts for dining or receptions
- Corporate Exhibitions & Trade Shows – professional presentation with branding potential
- Festivals & Major Events – spacious pavilions for catering, bars, or entertainment zones
- Community & Council Events – weather-resistant shelters for public gatherings and expos
