

WOW MARQUEE

The Crossover Dome Marquee combines striking design with practical versatility, delivering a premium focal point for events of all kinds.

SKU: N/A | **Categories:** [Dome Marquees](#), [Marquees](#)

PRODUCT DESCRIPTION

The WOW Marquee—also known as the **Crossover Dome Marquee**—is designed to make a bold architectural statement at any event. With its 6m × 6m square base and striking dome-shaped roofline, this premium structure combines style, strength, and versatility, delivering a high-impact setting for corporate activations, festivals, private events, and VIP zones.

Built with engineered rigging points that support up to **400kg of suspended load**, the WOW Marquee allows for seamless integration of truss, signage, lighting, AV equipment, and branding elements. The clear internal span ensures every square metre of floor space remains usable, offering both functionality and visual impact.

Unlike traditional marquees, WOW Marquees bring a modern edge to event design—ideal for organisers who want to stand out and create an unforgettable guest experience.

Key Features of the WOW Marquee:

- **Striking Dome Design** – Unique architecture with a 6m × 6m base and curved roof profile.
- **Heavy-Duty Rigging Capacity** – Built-in rigging points support up to 400kg for suspended equipment.
- **Clear Internal Span** – No central poles, providing unobstructed floor space.
- **Flexible Branding Options** – Easily integrates signage, truss, lighting, and AV setups.
- **Professional-Grade Engineering** – Fully compliant with Australian safety standards.
- **Premium Aesthetic** – Sleek, modern look that elevates event atmosphere.

Ideal Applications:

- **Corporate Events & Brand Activations** – Eye-catching structures for product launches, promotions, and expos.
- **VIP & Hospitality Zones** – Stylish, private spaces at festivals or sporting events.
- **Weddings & Private Events** – Elegant marquee hire for receptions and stylish outdoor ceremonies.
- **Festivals & Outdoor Gatherings** – Durable design suited to high-traffic public spaces.
- **Stage & Rooftop Builds** – Lightweight yet robust for installations in challenging locations.
