

## 225KG WEIGHT

Heavy-duty ballast for major structures and high-stability requirements.

**SKU:** 1011928.00 | **Categories:** [Marquee Weights](#), [Marquees](#)

## PRODUCT DESCRIPTION

The **225kg Weight** provides reliable anchoring for large-scale marquees, staging, and event structures that require enhanced ballast. Designed with a compact but solid footprint, this weight ensures maximum stability in demanding environments, including exposed outdoor sites and high-wind areas.

Engineered for event use, the 225kg Weight is suitable for both temporary and long-term installations. Its durable construction makes it a go-to ballast option for organisers needing dependable anchoring to meet safety standards and structural requirements.

### Key Features of the 225kg Weight:

- **Maximum Stability** – Heavy ballast designed for high-demand structures.
- **Event-Ready Design** – Built for frequent use across multiple events.
- **Weatherproof Construction** – Durable finish for outdoor reliability.
- **Versatile Applications** – Suitable for clearspan structures, staging, and perimeter fencing.

### Ideal Applications:

- Large marquees and clearspan structures.
- Outdoor stages and temporary platforms.
- Fencing runs requiring extra anchoring.
- Exposed event sites with high wind risk.
