

## 40KG WEIGHT

Heavy-duty ballast for reliable marquee and fencing stability.

**SKU:** 1011931.00 | **Categories:** [Marquee Weights](#), [Marquees](#)

## PRODUCT DESCRIPTION

The **40kg Weight** are a practical and robust solution for securing temporary event structures, from marquees and canopies to fencing and signage. Compact in design yet heavy enough to deliver reliable stability, these weights are commonly used when pegging into the ground is not possible.

With a narrow footprint, the 40kg Weight is ideal for urban spaces, paved areas, or sensitive grounds. Designed for repeat use, they provide dependable performance in challenging weather conditions, ensuring your event runs smoothly and safely.

### Key Features of the 40kg Weight:

- **Medium Ballast Solution** – Balances portability with heavy-duty stability.
- **Compact Size** – Fits in tight spaces without obstructing walkways.
- **Durable Material** – Built to withstand Australian outdoor conditions.
- **Multi-Purpose Use** – Secures marquees, fencing, signage, and umbrellas.

### Ideal Applications:

- Stabilising medium-sized marquees and canopy structures.
- Securing fencing lines in urban or paved areas.
- Providing ballast for umbrellas, heaters, or signage.
- Use in weather-exposed outdoor events.
