

70KG WEIGHT

Reliable heavy-duty ballast for large marquees and outdoor structures.

SKU: 1011916.00 | **Categories:** [Marquee Weights](#), [Marquees](#)

PRODUCT DESCRIPTION

The **70kg Weight** is designed to deliver maximum stability for larger temporary event setups where extra ballast is required. With a wide, sturdy footprint and a reinforced build, these weights provide the strength needed to keep marquees, clearspan structures, fencing, and signage secure in exposed or high-wind environments.

Engineered for versatility, the 70kg Weight can be positioned easily with standard event equipment and reused across multiple builds. Its durability and weather resistance make it an essential solution for event organisers seeking dependable ballast that ensures safety and compliance.

Key Features of the 70kg Weight:

- **Heavy-Duty Stability** – Provides strong anchoring for large structures.
- **Weather-Resistant Build** – Performs reliably in outdoor conditions.
- **Event-Grade Quality** – Designed for repeat use at festivals, expos, and community events.
- **Flexible Applications** – Suitable for marquees, fencing, umbrellas, and signage.

Ideal Applications:

- Anchoring large marquees and clearspan structures.
- Securing temporary fencing lines in exposed areas.
- Providing ballast for tall signage, flags, or branded displays.
- Reinforcing structures in high-wind or coastal environments.
