TERRATRAK PLUS

Heavy duty temporary roadway

Terratrak Plus is a translucent floor designed to protect both natural and synthetic surfaces from heavy loads. Creating a consistent adjoining temporary roadway surface for large plant and equipment up to 75,000kg/sqm, Terratrak Plus is ideal for stage build access pads with cranes, forklifts and trucks being able to access delicate stadium turf without damaging the profile of the stadium surface. The interlocking system enhances the flooring systems' strength with cam locks providing the strength of a steel connection without the danger of rusting or bending.

APPLICATIONS:

- ▶ Temporary Drivable Roadways
